

We welcome the focus on climate change at the
2015 World Bank Group/IMF Spring Meetings

Let's partner on climate action. Now.

We are CEOs from 43 companies and 20 economic sectors. With operations in over 150 countries and territories, together we generated over \$1.2 trillion of revenue in 2014.

In the spirit of the World Economic Forum to foster public-private cooperation, we affirm that the private sector has a responsibility to engage actively in global efforts to reduce greenhouse gas emissions, and to help the world move to a low-carbon, climate-resilient economy.

We call upon governments to take bold action at the Paris climate conference (COP 21) in December 2015 to secure a more prosperous world for all of us. We are already taking action, and we stand ready to work together with the international community to help deliver practical climate solutions.

We have prepared a statement outlining our vision. Please go to medium.com/@ClimateCEOs to read our full message. #ClimateCEOs
